

# Artist Training Facility

*Building the Future at Lakewood Center for the Arts*

Our new Artist Training Facility, which replicates the beautiful Headlee Mainstage, will create a rehearsal hall and expanded learning environment for theatrical artists.

The new 40' x 50' building will blend seamlessly into our historic facility and build capacity for artistic and programming needs here.

Join our board of directors and support this visionary capital campaign to build the future at Lakewood!

Increase the quality of theatrical productions

Increase training in acting, staging and design

Expand youth education

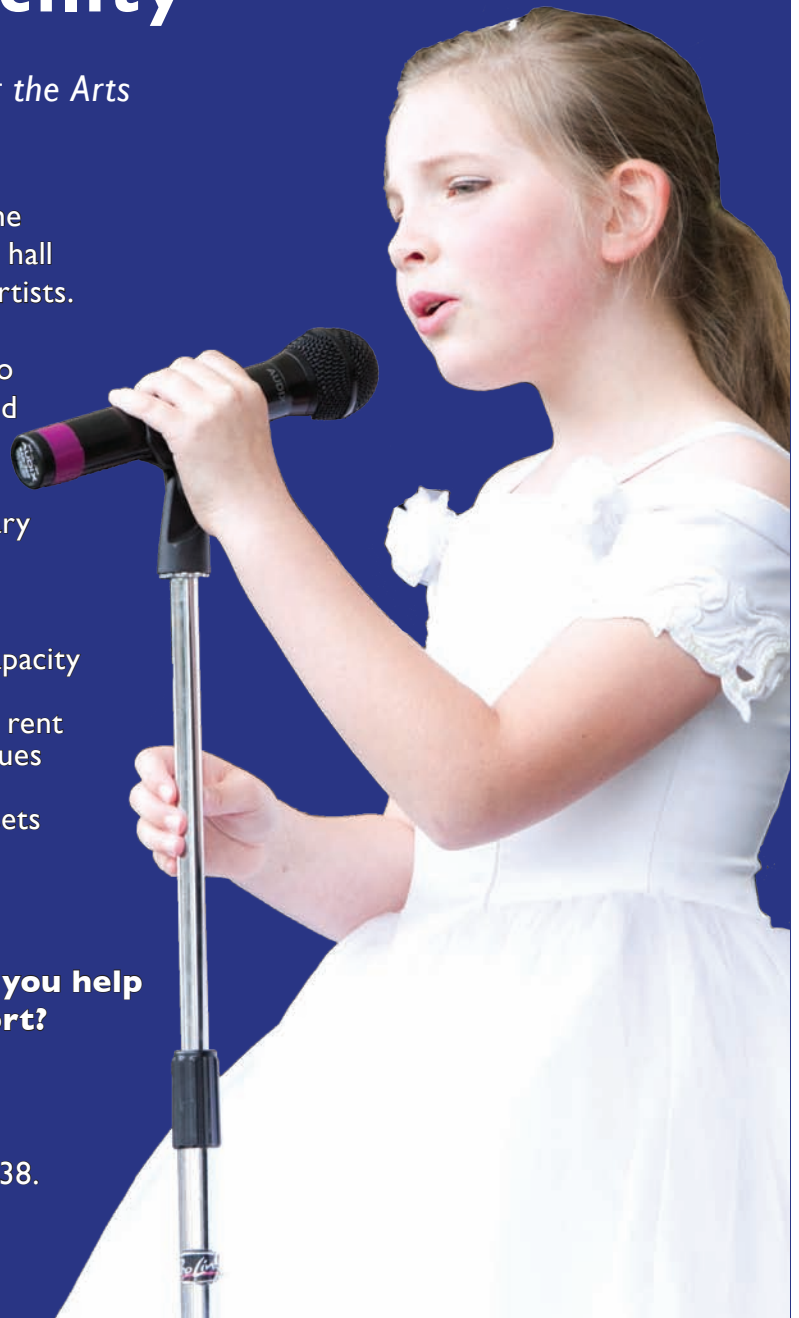

Build programming capacity

Eliminate the need to rent outside rehearsal venues

Increase storage for sets and costumes

**Our goal for completion is \$550,000. Can you help with building materials or financial support?**

To learn more about the project please contact:  
Andrew Edwards, Executive Director or  
Peter Journey, Development Director at 503-635-6338.

## YES! I will build the Artist Training Facility

This is a designated gift for this capital campaign project.
